IMPORTANT CLUB INFORMATION

NOTICE OF ANNUAL MEETING JULY 9

Directors of the Board are to be elected & other business. Held at ELY Church on Tuesday July 9th following the evening program which begins at 7:00PM with refreshments at 6:30PM.

CLUB CALENDAR: Save the dates

Pages to find articles are noted. Please contact the newsletter editor with new dates, cherylpoo@aol.com.

June 4 Hwy B Road Clean Up, 9AM, HwyB/S, June 5 rain date, pg.3.

June 14 North Country Trail clean up, 8AM, Nordines, pg. 4.

June 22 Canoe Big Bateau in Sylvania Wilderness, 10AM, Conserve School, pg. 3.

Dec. 6 Dinner Dance at Gateway Lodge

Feb 13, 2020 Valentine's Dinner & Photo Contest at Gateway Lodge.

EASY WAY to Help FGC raise \$\$

Fish and Game Club has set up an AmazonSmile account to allow you to automatically donate to FGC every time you buy an item from Amazon. AmazonSmile is the same Amazon you know. Same products, same prices, same service. Register for AmazonSmile and select FGC as the recipient of the donation upon your purchase. Amazon donates 0.5% of the price of your eligible AmazonSmile purchases to FGC. FGC uses the funds raised in the AmazonSmile program to support its programs.

After signing up for AmazonSmile you can easily access your account to shop because a bookmark for AmazonSmile is automatically placed in your browser toolbar when you register.

Support FGC by starting your Amazon shopping at smile.amazon.com.

2019 EVENING PROGRAMS

by Carol Mason Sherrill

Club meetings are normally held on the second Tuesday of each month, May thru October, at 7:00 pm in the Fellowship Hall at Ely Memorial Church in Land O Lakes. Light refreshments are available beginning at 6:30 pm. The meetings feature a guest speaker, followed by a short business meeting. The public is invited - no charge. The 2019 programs:

June 11 *Sturgeon Recovery Program* - John Pagle, USFS
Come to learn about the life history and management of the Lake Superior's largest prehistoric fish, the lake sturgeon! Discover what your cooperating agencies are working on in the field of lake sturgeon science and management. (Cont. pg. 2)

WE STILL REALLY NEED YOU!

WE SIMPLY NEED OUR MEMBERS TO VOLUNTEER.

This is a plea for volunteers. NEEDS ARE:

The **OUTDOOR COMMITTEE** HAS NO MEMBERS-UGH! It is in search of a new chair and committee members. Historically the committee organizes and coordinates outings, including proposing outings for board approval, submits photos and articles for the newsletter and submits email reminders of planned events to the membership, etc. You are welcome to organize an event without being on the committee. Contact **Stefan Anderson** at ConserveSchool.org or 715-547-1308 for more information.

FGC, **all about Community Service**, is looking for 1-2 new coordinators for the **MICHIGAN ROAD CLEAN UP**, a 2 mile stretch on Hwy 2 in Watersmeet. Done twice a year in the spring and fall, this is really a low-key volunteer position that takes a couple of hours twice a year using volunteers from the Club to help. Adopt-A-Highway supplies are available from the Gogebic County Road Commission. It would be disappointing if we have to give up this project and lose the free publicity that we receive from the road side markers. Contact Dale Sharpee to take on this role, rhodale@alphacomm.net.

Please **Renew Your 2019-20 Membership Today!**
Information & reg form on page 7.

2019 Scholarship Awards

by Gary Ebert

On May 6 the club presented two scholarships to graduating seniors at the annual Northland Pines Awards Ceremony. Pazia Peterson received the \$500 John (Jack) LaChance Sr. Environmental Scholarship, and Noah Miller received a \$4000 Land O' Lakes Fish and Game Club Senior Environmental Scholarship. As has been done the last few years, the \$4000 scholarship will be paid out in four equal installments at the beginning of each academic year, provided the recipient remains in good academic standing and continues to be enrolled as a full-time student. Hopefully, some of the recipients of our \$4000 award will be able to present a program at one of our Tuesday night meetings near the end of their academic careers. We feel this is a good way to use the money in our Scholarship Fund, and will increase the likelihood that we are sponsoring students who will make positive impacts on the (Cont. pg. 6)

Please thank Headwaters State Bank

2019 EVENING PROGRAMS

Continued from page 1.

Please give a Thank You!

To ELY Church for housing our Evening Programs

July 9 *Mt. Whitney to Yosemite, A Lifetime Walking the JMT/PCT*, Cheryl Pytlarz and Frances Reneau

In 1977, as high school graduates, we two independent gals, Cheryl Emrich (Pytlarz) 17 years old and Frances French (Reneau) 18 years old, set out alone to hike over 350 miles over 6 weeks along the High Sierra in California, which included all of the John Muir Trail, additional mileage on the PCT, and a dozen day hikes on layover days. Not having quite finished as planned, life intervened, and 41 years later in 2018 we reunited to complete the last week of our youthful ambition.

August 13 *Adrienne Jaeger – Former National Park Service Ranger* Adrienne S. Jaeger will talk about her experiences working as a ranger at Mount Rushmore National Memorial in 2016, the centennial anniversary of the National Park Service. Come learn about being a park ranger, living in the Black Hills, and what it was like to protect one of the most iconic works of art in the world.

September 10 *“Shooting Fall Colors”* - Scott Pearson Photographer and biologist Scott Pearson will present a program on how to get your camera to record the same vibrant colors your eyes see in the fall. Scott's photos have won numerous awards and have appeared in Lake Superior Magazine.

October 8 *Jeff Nania, author of Figure Eight: A Northern Lakes Mystery.* Speaker for this month. His first career was in law enforcement serving in many roles. A lifelong outdoorsman, Jeff's interest in natural resources led him to a new career founding and leading the Wisconsin Waterfowls Association Wetland Restoration Field Team, restoring hundreds of wetlands across the state. Through this work, he became nationally recognized as one of the pioneers in the ecosystem-based approach to restoration. Jeff was named by Outdoor Life Magazine as one of the nation's 25 most influential conservationists, was Wisconsin Wildlife Federation's Conservationist of the Year and has received the National Wetlands Award, Leopold Restoration Award, and Wisconsin Outdoor News Lifetime Achievement Award. This meeting will be held at Conserve School with a dinner preceding the presentation.

COMMITTEE NEWS

Education Fund

by Jim Thomas

Balance as of 5/24/18 was \$ \$33,731.72. The Fund's purpose is to support educational grants given to teachers for programs to foster the conservation of natural resources through the education of our young people. If you would like information on educational grants, the Club has a brochure describing the program. Donations made to this fund are only used for teacher grants or scholarships and are not used for general operating expenses. If you would like information about this fund, call Jim Thomas at 715-547-3556. If you would like to make a donation to this fund, send your check to Land O' Lakes Fish & Game Club, Education Fund, P.O. Box 516, Land O' Lakes,

COMMITTEE NEWS

Educational Grant Committee

by Kathleen Kuchevar

Below is an invitation FGC received from one of our 2018 and 2019 educational grant recipients. 4th graders at Eagle River Elementary are holding their 2nd annual Conservation Fair.

Dear Land O Lakes Fish and Game Club Members,

We are excited to announce that on May 30th, 2019, the Eagle River Elementary School fourth grade is going to hold its second annual Conservation Fair! Students, as well as local organizations, will be hosting individual booths in order to educate our community in regards to sustainability, stewardship, and conservation. We are inviting community members and media to attend this wonderful event! It promises to be a wonderful afternoon filled with excitement and learning! We are writing to offer you the opportunity to be a part of our Conservation Fair team! We would be honored to have your school and their beliefs present at our fair. Students and community members alike would benefit greatly from learning about your education programs and would do well to learn more about your school. We would provide you with a table and couple of chairs and would be thrilled to allow you an opportunity to promote your environmentally sound contributions that are present in your organization.

Thank you for considering our invitation. The fair will be held in the Eagle River Elementary School cafeteria and it starts at 4:00 P.M. and ends at 5:30 P.M. Our goal is to promote environmental awareness among our students. Our students are the future of a prosperous and environmentally conscious citizenry. We would be delighted to have you join us on May 30th!

Sincerely, Gretchen Hall, Nicole Musial, Jessica Parling
Eagle River Elementary, 4th Grade Teachers

NEW FGC WEBSITE!

by Stefan Anderson

Our club has a new website which you can find at fishandgameclub.org. Please check out the website where you will find valuable information such as the schedule of upcoming club events, area events in line with the club's mission, local recreation opportunities, and information about past club activity. You can also make donations to the Education Fund or ski trail on the site at fishandgameclub.org/donate.

If you wish, you can log in to the website using the email address for your club membership and then use the forgot password feature to have a temporary password sent to you. At this time, there aren't a lot of member only features, but you can review the contact information that the club has for you there.

LOL Ski Trail becomes Summer Hiking Trail

As we seem to be in summer already our thoughts are not on skiing but we should not forget the ski trail which offers great hiking from now until ski season. In the summer the hardwood canopy on the West Side Trails offers great shade and even in hot weather hiking can be comfortable. On cool fall days the East Side Trails, being more open, allow for more sun to keep you warmer.

Hope to see you on the trails both before and after the snow begins falling.

See you on the trails!
bob

UPCOMING OUTINGS, We have one!!!

Big Bateau Canoe Outing

On June 22, at 10AM, join Stefan Anderson, Head of Conserve School, for a few hours of paddling. Conserve School is opening up its canoe base on Big Bateau Lake so that club members can explore the 236 acres of Big Bateau Lake, the southern most lake in the Sylvania Wilderness Area. Conserve School will supply canoes, paddles and PFDs at no charge. Attendees are free to bring their own kayaks or canoes if they would prefer.

Attendees will be briefed on the Sylvania Wilderness Area rules and will be required to adhere to them.

Please bring: picnic lunch, shoes that can get wet, and an adventurous spirit. If you would like to fish, you need a Wisconsin or Michigan fishing license, artificial lures (no live bait), and barbless hooks. There will be a grill available for those that would like warm food at the boat launch picnic area.

This event is free to Land O Lakes Fish & Game Club members and their guests. Preregistration is required and can be done on the club website.

Please **Renew Your 2019-20
Membership Today!
Information & reg form on page 7.**

BOARD NEWS

Amazon Smile Community Support

by Dale Sharpee

If you use Amazon's services, there is an opportunity for you to provide financial support to the Club. This support is from the AmazonSmile Foundation. This Foundation created a program whereby Amazon donates 0.5% of the purchase price of eligible products to charitable organizations selected by their customers. In 2017 an account for the Club was created so that donations could be received from this program. Donations from the Foundation have been received in 2017 and 2018 and each of the two quarters in 2019. Thank-you to those of you who have and are participating in this program. If you would like more information on AmazonSmile, refer to "Frequently Asked Questions" on <http://org.amazon.com>. If you chose to support our Club through this program, the following will link you directly to [smile.amazon.com](http://smile.amazon.com/ch/39-1604410): <http://smile.amazon.com/ch/39-1604410>. (The number in the link is the Club's EIN.)

2019-20 Membership Renewal Begins

by Stefan Anderson

It is membership renewal time! Currently the club has 115 family memberships, 50 individual memberships, and 15 business memberships. During the month of June, members will be receiving an email inviting them to renew their membership online. Alternatively, you can use the membership renewal form included in this newsletter. Membership in the Land O' Lakes Fish & Game Club runs from July 1st through June 30th.

The club is using a new membership database, and I apologize in advance if anyone who has prepaid for the 2019-20 membership year gets a second request to pay those dues. There are still a few kinks being worked out. Simply send me an email at Stefan.Anderson@ConserveSchool.org and I will correct the information for your membership.

Club membership is strong and with your involvement, we can continue to enjoy the riches of the Northwoods through shared conservation, recreation, and educational activities.

COMMUNITY SERVICE PROJECTS

Wisconsin Road Spring Clean Up

If you are available, we would appreciate the help to clean up the north end of Highway S and Highway B from Forest Lake Country Store to Black Oak Lake Beach. The cleanup is scheduled for Tuesday, June 4. We will provide the grabbers, safety vests, and trash bags. We will meet at the corner of Highway B & S on the northside of the road at 9 am. It's a good idea to apply bug spray for the venture. In the past, volunteers have finished in an hour.

If you are coming, please mark your calendars and send your name, phone number, and email address to Steve and Lynn Klemann at lynnklemann@hotmail.com Or call 715-547-1177.

Rain date will be Wednesday, June 5 - same time and place.

Hope to see you there!

- Steve & Lynn Klemman

COMMUNITY SERVICE PROJECTS

Work Party Agonikak Trail May 2019

by Jim Thomas

Eighteen volunteers braved the rainy weather and cleaned-up the Agonikak Trail of all the fall and winter debris. They covered 12 miles of trail. The bugs did not show this year because they all drowned. That makes four years of unbugginess (special UP word). After the work, we all enjoyed pizza provided by Wilderness Lakes Trails and shared stories of the day. Mainly complaining about my weather forecasting. I opted not to cancel the work party as the radar showed the front would pass before we started and we would be rain free until we were done. The first part was correct!

This was our sixth Agonikak work party. Back in 2008 we identified the restoration of the Agonikak National Recreation Trail as a possible public service project for the Fish and Game Club. Once it became part of the trail system being developed by Wilderness Lakes Trails in cooperation with the Town of Watersmeet and the U.S Forest Service, our involvement became critical. Watersmeet agreed to be a sponsor so we could get a grant, but was not in a position to provide maintenance. The USFS agreed that they would be willing to enter into a maintenance agreement with WLT and the F&G Club similar to what we currently do with the hiking and ski trails. In May 2010, the F&G Club approved a three way agreement with the USFS and WLT. We agreed to provide volunteers with the USFS and WLT providing equipment and financial support to maintain the trail.

Thank you to these volunteers!!!!

PUBLIC LANDS SERVICE PROJECTS

Thank You ALL!

North Country Trail Maintenance

by Team Kickert

CALL for Volunteers!

North Country Trail Cleanup will be Friday, June 14th. We will meet at Nordine's in Watersmeet at 8:00 and caravan to the trailhead. Some of us walked the trail in May and removed almost all of the logs and debris on the trail. The work in June will consist mostly of using weedeaters, brushcutters, or clippers to remove ferns and small seedlings that have grown up on the trail.

We have also adopted a 2nd segment so can use all the help available. Dress accordingly for the UP – mosquito and/or rain gear, long sleeves and pants for ticks, and gloves. Bring water, snacks or lunch and equipment you might have – weedeaters, brushcutters, clippers etc. We hope to be done by 1PM.

If you can help or have questions, give us a call or jot an email so we have an idea of how many to expect. As usual, we so appreciate everyone who helps. We couldn't do it without you.

Pat and Steve Bielke 262-424-4046 patbielke@sbcglobal.net

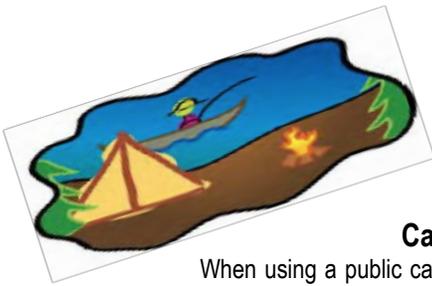

Rita and Steve Kickert 715-547-6972 or 715-891-5348

Sylvania Camp Site Surveys

by Cheryl Pytlarz

A thank you goes out to the loyal Gamers and guests who year after year help out the Forest Service in Sylvania Wilderness. The Wilderness has 50 backcountry campsites accessible only by foot or paddle boat. It takes about 180 volunteer hours to visit all of the sites to survey their condition so Forest Service personnel can service them for the season. Our volunteers look for dangerous trees, clean up dry flammable debris around the fire rings and note whether the latrines need relocating. This volunteer opportunity is a great way to ring in the summer season each year.

Thank you to Norm Nass, Stefan Anderson, Conserve School students, Greg & Yvonne Clark, Tim & Betty Wright, Bill Boscamp, Wil Buergey, Bob Cascarano, Mary Congdon, Quita Sheehan, Sue Holloway, Diana Mehlhop, Bill Grahl, Chris & Gary Ebert, Jeff Pytlarz, Jim Thomas, Cheryl Pytlarz, Deb Hilbrich, Bonnie Mansfield, David & Carol Sherrill. I apologize if I forgot someone.

Camping Tips:

When using a public campground, a tuba placed on your picnic table will keep the campsites on either side vacant.
 Lint from your navel makes a handy fire starter. Warning: Remove lint from navel before applying the match.
 The warmest part of the tent is the corner, it is usually 90 degrees.
 Bear bells provide an element of safety for hikers in grizzly country. The tricky part is getting them on the bears.
 In an emergency, a drawstring from a parka hood can be used to strangle a snoring tent mate.
 Average temperature increases with the amount of clothing brought.

SIGHTINGS

Member Mary Thomas -
 This Barred Owl was up in a tree waiting for me to get out of the way of his fresh catch, a rabbit. He had killed the rabbit, but Lilly and Harley had come out and he flew off, waiting in the tree above. When we left, he returned and finished off his dinner. — at Black Oak Lake.

Member & FGC President Stefan Anderson -
 This is a photo that I took this spring of a fox kit. It is never too early to start collecting photos for the next Fish & Game Club Photo Contest!

**THANK YOU!
 to all of the Club Volunteers**

The Fish & Game Club is not alone. We too require gracious volunteers to run the organization. Note below, the long list of volunteers required to offer our wonderful civic and social programs. We ask that you consider volunteering, kind of a pay-your-dues for a period of time, so our fine programming can continue. When a program has no volunteers it doesn't happen or only sort of (like our now limited outings because there is no Outings Committee).

The following are the **VOLUNTEER OPENINGS** at present:

Outing Committee Chair and members (total of 4)
 Michigan Road Clean Up Leaders (2 mi. of Hwy 2 in Watersmeet)

NOTICE OF ANNUAL MEETING JULY 9

Directors of the Board are to be elected & other business. Held at ELY Church on Tuesday July 10th following the evening program which begins at 7:00 pm.

2019 Scholarship Awards *Continued from page 1*

protection and preservation of the environment upon graduation from the college or university of their choice.

Pazia Peterson, the LaChance award winner, will be attending Northland College in the Fall, where she will be majoring in Environmental Science and minoring in Outdoor Education/Administration. Pazia is a self-reliant, independent young woman who has developed a "passion for the environment", as stated in one of her recommendation letters. Her love for the land and great outdoors came from all the time she spent on her grandparents' hobby farm, where she lived for most of her life. She was also influenced by her aunt who taught an outdoor ecology class at the Conserve School as an intern, and by a summer shadowing course she took at Trees for Tomorrow. At Northland Pines High School she was extremely active in numerous school activities, many of which had a mentoring aspect to them. Her goal for the future is to return to this area in some environmental education capacity, perhaps even at the Conserve School.

Noah Miller, the Fish and Game Club award winner, will be attending Montana State University in the Fall, majoring in Environmental Science and minoring in Political Science. Noah was second in his class at Northland Pines and a member of the NPHS National Honor Society. Noah is in Costa Rica this summer, where he is a volunteer for the Sea Turtle Conservation Program. Noah attended the Conserve School for one semester his junior year, and by all accounts this was a life-altering experience for him. Rather than focusing on hockey, he began devoting his time and energy to promoting environmental stewardship. He spent time during the summers of 2017 and 2018 doing volunteer work to control invasive species within the Sylvania Wilderness Area. He did volunteer work at the Land O' Lakes Community Garden, and helped design a school garden at NPHS through the Farm to School Program. Sustainable farming worldwide became one of his interests and passions. But most importantly, he found the power of his own voice when he was selected as one of 40 young adults (only 5 from Wisconsin) to fly to Washington to lobby for the protection of the Boundary Waters Canoe Area through an organization called Kids for the Boundary Waters. Meeting with highly ranked members of the United States Congress in this lobbying effort was extremely inspirational for Noah, and has started him on a path towards environmental activism. He believes that one voice can make a difference. Noah's goal for the future is to inspire others in the fight for protection of the earth's natural resources and public lands, and to promote sustainable farming worldwide.

From the Left, Noah Miller, the Fish and Game Club award winner and Pazia Peterson, the LaChance award winner.

How Ice Melts on our Lakes

provided by Mike Brennand

A description of how lake ice melts away appeared on the web blog "Air Mass", hosted by the Star Tribune's Bill McAuliffe. Ed Swain, of the Minnesota Pollution Control Agency describes the process of freezing and thawing lakes.

In the late fall, the lake loses heat to the atmosphere, and then on a day or night when the wind is not blowing, ice forms. The ice gets thicker as long as the lake can continue to lose heat.

In most Januaries and Februaries, snow both reflects sunlight and insulates the lake. With a thick snow layer, the lake neither gains nor loses heat. The bottom sediment is actually heating the lake water slightly over the winter, from stored summer heat.

Around March, as the air warms and the sun gets more intense, the snow melts, allowing light to penetrate the ice. Because the ice acts like the glass in a greenhouse, the water beneath it begins to warm, and the ice begins to melt FROM THE BOTTOM.

When the ice thickness erodes to between 4 and 12 inches, it transforms into long vertical crystals called "candles." These conduct light even better, so the ice starts to look black, because it is not reflecting much sunlight.

Warming continues because the light energy is being transferred to the water below the ice. Meltwater fills in between the crystals, which begin breaking apart. The surface appears grayish as the ice reflects a bit more light than before.

The wind comes up, and breaks the surface apart. The candles will often be blown to one side of the lake, making a tinkling sound as they knock against one another, and piling up on the shore. In hours, a sparkling blue lake, once again!

Another Successful TREE GIVEAWAY!

by Joe LoMastro

The club teamed up again this year with the US Forest Service Toumey Nursery to give away trees at the on Saturday of Memorial Day Weekend. This year the nursery provided 2,700 trees. In 4 years an amazing 12,300 trees have been distributed to the public!

Our sincere thanks goes out to the management and the team at the nursery for the beautiful trees. Many thanks to Joe LoMastro for coordinating the event and to Steve Wilkinson for helping Joe distribute them at the event.

Toumey nursery is located in Watersmeet, MI and currently has 66 acres dedicated to planting. The number of trees grown in the nursery is determined by each National Forest's yearly projected needs. At full capacity it is capable of producing 12 million saplings per year. The nursery includes 3 greenhouses and 2 hoop houses where the seedlings are started. The bare root trees made available for the Summer Launch are a culmination of two to three years of hard work and intensive management by nursery personnel. Tours can be arranged for a wide range of groups by contacting their office at 906-358-4523.

We look forward to partnering with the Forest Service again for this popular event in future years.
